# Bali Diving Academy

Starting from mid of July until October is the season to see the divers' "most wanted" sunfish / Mola mola. The most visited dive spot in Bali is in Crystal Bay, Nusa Penida. However, the site is often too crowded and make the experience less pleasurable .

Therefore, we have planned to prepare an early morning dive to avoid the crowd and bring divers to lesser-known dive sites with still very high chances of encountering Mola Mola.

Such as Sental, PED, SD, Toyapakeh, Malibu Point, Gamat Bay, etc.,

Here is our itinerary :
